

AMCI's New Website Launches with Live Help

Terryville, CT – Advanced Micro Controls Inc (AMCI) is inviting visitors to access its new website, from anywhere. The new, mobile-friendly website design provides a clean, uncluttered experience with richer online content that is easier to navigate and share with others, simplifying the specification process. Visitors can now access detailed product information & pricing, videos, and other resources easily on any device.

The new website is live at the same address www.amci.com and gives better access to Products, How to Buy, About Us, News, Resources, Support, and Contact information.

▶ [Watch a quick preview video of the new site here](#)

The new website provides customers, distributors, and OEMs open access to all product pricing and detailed product information in a clean format on desktop, tablet, or mobile. The improved design eliminates the guesswork during the specification process by providing part numbers and pricing for related accessories, linking directly to the applicable accessory from the product page.

The new 3D drawing tool, which has currently been rolled out on the resolvers product pages, provides visitors with an interactive product drawing, making it easier to visualize product solutions in the framework of their applications. Users can select different product options and the tool instantly reflects those options in the drawing. The tool provides over two dozen 2D and 3D file formats to choose from for download.

AMCI's new website enhances the company's customer service levels and application support through a live chat feature, with on-staff operators available Monday-Friday, 8am-5pm EST to help with product sales & support.

Visitors are encouraged to explore the website and sign up for direct emails from the Company at www.amci.com

About Advanced Micro Controls Inc.
