

AMCI Support Expands to Southeast Asia (SEA)

Terryville, CT – Advanced Micro Controls Inc. (AMCI) – June 1st, 2025

AMCI is proud to announce the addition of [AVS Control](#) as an official manufacturer's representative for the Southeast Asia (SEA) region.

AVS Control brings a hands-on approach to industrial automation sales and support, offering localized technical guidance to customers throughout the SEA market. With a strong foundation in automation technology and a deep understanding of regional application needs, AVS Control is well positioned to help engineers, OEMs, and system integrators identify the right AMCI solutions for their specific challenges.

“We’re excited to partner with AVS Control as our boots on the ground in Southeast Asia,” said Matthew Tellier, AMCI Sales Manager. “Having a local representative who understands the technical and cultural nuances of the region is key to ensuring our customers receive not only high-performance products, but also personalized support throughout the entire project lifecycle.”

AVS Control acts as a dedicated resource to help customers navigate product selection, integration, and deployment. From resolving application-specific questions to providing fast, local support, they offer a level of responsiveness that makes working with AMCI even more efficient.

Whether you’re designing a new machine, upgrading an automation system, or simply exploring options, AVS Control is available to help assess your needs and guide you to the best fit solution.

For inquiries in the SEA region, please contact AVS Controls:
