

## AMCI Webinar Explains PLC-Based Stepper Motion Control Basics

Terryville, CT – Advanced Micro Controls Inc. (AMCI), recently sponsored an educational webinar describing the basics of PLC-based stepper motion control. The webinar was hosted by The Journal from Rockwell Automation and explained the basic parts of a stepper system, how they integrate with PLCs, and how they compare with servos. Other stepper related topics included EtherNet/IP™, applications and case studies.

AMCI is an Encompass™ Product Partner in the Rockwell Automation PartnerNetwork™
